OM THAKUR

Java Backend Developer

Indore, Madhya Pradesh, India • +91-9302975212 • omsinghthakur930@gmail.com • LinkedIn • GitHub • LeetCode

PROFESSIONAL SUMMARY

Results-driven Java Backend Developer and Information Technology undergraduate with hands-on internship experience engineering secure, scalable REST APIs using Java 17, Spring Boot 3, Spring Data JPA, and MySQL. Solid foundation in Object-Oriented Programming (OOP), layered architecture (Controller-Service-Repository), and relational database modeling. Strong problem-solving aptitude with 150+ Data Structures & Algorithms problems solved on LeetCode. Passionate about clean code, test-driven development, and rapid technical adaptability.

TECHNICAL SKILLS

Languages: Java (17/21), SQL, JavaScript, C
Frameworks & Backend: Spring Boot 3, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, DTO Pattern, Jakarta Bean Validation
Security & Auth: Spring Security 6, JWT (JSON Web Tokens), BCrypt Hashing, Role-Based Access Control (RBAC)
Databases: MySQL, PostgreSQL, Relational Schema Design, Foreign Keys, Indexing, Transactions
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Design (OOP), SOLID Principles, Collections Framework, Multithreading
Tools & DevOps: Git, GitHub, Maven, Postman, Flyway, Swagger/OpenAPI, Docker (basics), IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Java Developer Intern • Dollop Infotech, Indore *January 2026 – June 2026 (6 Months)*

- Designed and deployed **12+ RESTful API endpoints** using **Spring Boot 3** and **Spring Data JPA**, adhering strictly to layered architecture (Controller, Service, Repository, DTO).
- Implemented stateless **JWT-based authentication and Role-Based Access Control (RBAC)** using Spring Security, securing application endpoints and preventing unauthorized access.
- Engineered strict request/response DTO contracts with **Jakarta Bean Validation** (`@Valid`, `@NotNull`, `@Size`), eliminating malformed payloads and returning standardized error responses.
- Modeled relational schemas in **MySQL** with normalized tables, foreign key constraints, and optimized `@ManyToOne` / `@OneToMany` relationships with JPA/Hibernate.
- Centralized API exception handling with `@RestControllerAdvice` and custom business exceptions, improving API error clarity for frontend and client consumers.
- Collaborated with team members using **Git feature-branch workflows**, participating in code reviews, resolving merge conflicts, and verifying API contracts via Postman collections.

KEY PROJECTS

Instagram Clone – Full-Stack Social Media Platform • GitHub

Tech: Java 17, Spring Boot 3, Spring Security, JWT, Spring Data JPA, MySQL, Flyway, React, Tailwind CSS

- Architected a full-featured social platform backend managing user profiles, follow relationships, post feeds, comments, and like metrics.
- Managed automated database schema migrations and zero-downtime versioning using **Flyway**, ensuring consistent DDL execution across environments.
- Configured custom security components including `CustomAccessDeniedHandler` and `AuthenticationEntryPoint` for fine-grained security auditing.
- Developed responsive frontend interfaces in **React** using Axios for API consumption and React Router for client-side navigation.
- Wrote integration tests using `@SpringBootTest` and mock MVC tests, ensuring critical auth and post flows maintain 100% contract compliance.

Sales Tracking & Management System

Tech: Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL, REST APIs

- Built an enterprise sales pipeline backend supporting multi-tenant user roles (Admin, Sales Manager, Agent).
- Engineered REST APIs for Lead Lifecycle, Deal Progression, and Activity Tracking with server-side pagination, sorting, and dynamic filtering using JPA Specifications.
- Implemented password hashing using BCrypt and stateless JWT token expiration cycles, protecting sensitive corporate sales data.
- Designed database indexing on high-frequency query fields (Lead Status, Agent ID), accelerating search query speeds by 30%.

PROBLEM SOLVING & ALGORITHMS

Solved 150+ LeetCode problems spanning Trees, Graphs, Dynamic Programming, Heaps, Hashing, Binary Search, Linked Lists, Stacks, and Queues using Java.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology • Sushila Devi Bansal College of Technology (SDBC), Indore *Graduating: June 2026 | CGPA: 6.9 / 10*
