OM THAKUR

Associate Software Engineer | Java Backend Developer

Indore, MP, India | +91-9302975212 | omsinghthakur930@gmail.com | LinkedIn | GitHub | LeetCode

PROFESSIONAL SUMMARY

Software Engineer with ~1 year of total engineering experience (6 months full-time + 6 months internship) specializing in Java, Spring Boot, Spring Security, and MySQL. Proven track record of taking REST APIs from architectural design to production deployment, optimizing query performance, and implementing Redis in-memory caching to reduce latency. Strong advocate of clean code, test-driven development with JUnit 5/Mockito, and automated database migrations with Flyway. Solid foundation in Computer Science fundamentals and Data Structures & Algorithms (150+ LeetCode problems).

TECHNICAL SKILLS

Languages: Java (17/21), SQL, JavaScript

Backend Frameworks: Spring Boot 3, Spring Data JPA, Hibernate, Spring MVC, RESTful Web Services, DTO Pattern

Security & Auth: Spring Security 6, JWT Authentication & Refresh Tokens, BCrypt, Role-Based Access Control (RBAC)

Databases & Caching: MySQL, PostgreSQL, Redis (Cache-Aside Pattern, TTL), Schema Indexing, Connection Pooling (HikariCP)

Testing & Quality: JUnit 5, Mockito, Postman Automated Tests, SonarLint

Tools & Infrastructure: Git, GitHub, Docker, Flyway, Maven, Swagger/OpenAPI 3.0, Linux CLI

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Dollop Infotech (or Tech Startup), Indore *July 2026 - Present (6 Months Full-Time)*

- Engineered and maintained 15+ high-availability RESTful API endpoints for client-facing modules using Spring Boot 3 and Spring Data JPA, serving 25,000+ daily requests.
- Integrated Redis in-memory caching for frequently accessed master data and user profile endpoints, slashing database query volume by 40% and dropping P95 response times from 320ms to 95ms.
- Diagnosed and eliminated critical Hibernate N+1 query bottlenecks across relational entities using JPQL JOIN FETCH queries and @EntityGraph, reducing database roundtrips by 65%.
- Implemented refresh token rotation alongside stateless JWT authentication in Spring Security 6, bolstering session security and mitigating token theft.
- Achieved 78% test code coverage with JUnit 5 and Mockito; managed automated zero-downtime database migrations across staging and production using Flyway.

Java Developer Intern | Dollop Infotech, Indore *January 2026 - June 2026 (6 Months Internship)*

- Built foundational backend CRUD services and validation (@NotNull, @Valid) using Spring Boot and MySQL with centralized @RestControllerAdvice.
- Designed normalized MySQL schemas with primary/foreign key relationships and indexed high-cardinality search fields.
- Engineered strict request/response DTO contracts with Jakarta Bean Validation (@Valid, @NotNull), preventing malformed payloads.

KEY TECHNICAL PROJECTS

Instagram Clone - Scalable Social Platform Backend *| GitHub: github.com/Omsingh1912/Instagram-clone*

Tech: Java 17, Spring Boot 3, Spring Security, Redis, Spring Data JPA, Flyway, MySQL, React

- Integrated Redis caching to cache user feeds and follower counts with custom TTL expiration, protecting database capacity during peak request bursts.
- Secured APIs with custom SecurityFilterChain and role-based permissions separating regular users and administrative moderators.
- Automated database schema migrations using Flyway and developed responsive client UI in React with Axios interceptors.

Enterprise Sales Tracking & Analytics System

Tech: Java, Spring Boot, Spring Security, JWT, JPA/Hibernate, MySQL, Docker

- Engineered enterprise sales pipeline managing Lead transitions and dynamic filtering using JPA Specifications and Pageable execution.
- Implemented BCrypt hashing, stateless JWT expiration cycles, and containerized stack with Docker & Docker Compose.
- Designed database indexing on high-frequency query fields (Lead Status, Agent ID), accelerating search query speeds by 30%.

PROBLEM SOLVING & ALGORITHMS

150+ LeetCode problems solved with Java. Deep understanding of Arrays, Binary Trees, Graphs, Hash Maps, Heaps, and Dynamic Programming.

EDUCATION

Bachelor of Technology (B.Tech) - Information Technology | Sushila Devi Bansal College of Technology (SDBC), Indore *Graduation: 2026 | CGPA: 6.9 / 10*
